The image displays four architectural drawings of a building facade, arranged in a 2x2 grid. Each drawing is labeled with a circled letter: C (top left), D (top right), A (middle), and B (bottom).

- Drawing C (Top Left):** A side elevation showing a building with horizontal siding and a gabled roof. A single door is located on the left side, and a small set of steps leads up to it from the ground line.
- Drawing D (Top Right):** A side elevation showing a building with horizontal siding and a gabled roof. Two windows are located on the right side, and a small set of steps leads up to the building from the ground line.
- Drawing A (Middle):** A front elevation showing a long, low building with horizontal siding. It features a single door on the left, a small square window in the center, and a double door on the right. The building is set on a raised platform with a ramp leading to the double door.
- Drawing B (Bottom):** A front elevation showing a long, low building with horizontal siding. It features a single door on the left, a double door in the center, and a large set of steps leading up to the double door from the ground line.
